Why are we a safe pre construction project to invest in?

Avanti Developers Issue buyers an insurance policy when signing the contract and making the down payment. This means the insurance company pays the buyer if the developer miss-uses the funds. A pre-sale bond is a protection for the buyer because the insurance company (CHUBB, a regulated financial institution) directly guarantees the developer's performance and the return of your money in case of non-compliance, acting as a solid and immediate backstop backed by a solvent entity. This takes the risk out for you as the buyer.

For a limited time, we are offering a payment plan of only 20% downpayment and 80% at delivery. Which means you get to see the finished unit before you pay the final 80%!

Contact us TODAY for access to our full information pack, price list and inventory. As well, you can have an online presentation or in-person presentation at our showroom onsite where you can see all our beautiful finishings and learn more about the project. Book your appointment TODAY!
